Subject: Cited NEA References for Riparian (Commentor 57)
Attachments: Riparian_References_Commentor_57.xlsx

Alan –

Attached are the list of riparian references for Commentor 57. This effort took a little more time b/c they authors only provided partial references in their document. For example, they referred to a citation as only “Jackson et al 2001” and they did not provide any other identifying information. I was able to find the full citation for these references using Google Scholar with the information provided in the document. There was only two which I could not piece together the entire citation, however fortunately these references were part of a multiply referenced statement so we have other documents which support the statement.
